Summary

BOXPARK Liverpool is the brand's first site outside of London. This cutting-edge leisure destination is a welcome addition to the city's already buzzing cultural scene and is located right in the centre of the city's creative district, the Baltic Triangle.

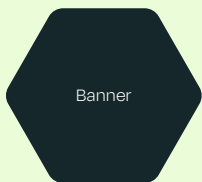

In addition to the large format digital screen on the external facade and the selection of internal banners, we present brands with two large, external banners (positioned either side of the digital screen), giving brands access to one of the North West's biggest out-of-home opportunities when booked as a domination alongside the digital screen.
